Pravljenje windows xp instalacionog diska sa izmenutom instalacijom?   19.11.2004. u 23:33

Moze li nekako da se izvede ovo gore tj. da se ubace instalacije nekih programa po mojoj zelji i da se pri instalaciji windowsa sa takvog diska, instaliraju ti programi.Prostim jezikom receno:Pri instalaciji xp-a umesto WMP 7 (default) instaliram WMP10, pa jos neke programe:Total comander,Nero...Znaci sve direktno sa diska...

Ovde je samo SP1 (kasnije i 2) ali je proces isti.

Use Registry way.

Re: Pravljenje windows xp instalacionog diska sa izmenutom instalacijom?   22.11.2004. u 03:18

Ja se izvinjavam ako je :) mnogo dugacak post.
Postupak pravljenja Unattended instalacije:

1. Nabavi clean instalaciju WinXP-a (znaci bez SP1 ili SP2).
2. Ako uopste hoces da integrises SP1 ili SP2 da znas da moze i rucno ali ti je mnogo lakse uz pomoc programa nLite http://nuhi.msfn.org/download.html. Sa tim programom mozes i da izbacis neke nepotrebne stvarcice koje ti ne trebaju npr. neke servise, windows mesenger...
3. U folderu C:\WinXP\I386 (tako je bar kod mene) nadji fajl winnt.sif i tu dodaj sta hoces da npr. ne unosis serijski broj... Moze i uz pomoc setupmgr (ref.chm ovde je objasnjenje) koji se nalazi u \SUPPORT\TOOLS\DEPLOY.zip.

4. E sad ide ono glavno, napravi folder OEM i stavi ga u C:\WinXP\.
- tu treba da ti se nalazi fajl C:\WinXP\OEM\cmdlines.txt. On poziva program XPlode
(http://xplode.voidfx.com/) 12 minuta a pre kraja instalacije

Code:
```
[COMMANDS]
"XPlode.exe"
```

- raspakuj XPlode u C:\WinXP\OEM\ (znaci pored cmdlines.txt). E sad treba da uz
pomoc npr. notepad-a editujes XPlode.xml fajl, (tu stavis programe koje hoces da
instaliras, registry tweaks...)

Code:
```
<XPlode>
    <config>
