

*...Serbia needs a place where the best will gather...
...the best need a reason to gather at one place.*

We are recruiting again!

SAP Consultants – Aerospace and Defense

the recruiter

Smartologic is a Career Meeting Point for top-caliber professionals and most talented graduates from the best universities in Serbia. We are an innovator within the specialist staffing market. We focus on candidates who are passionate enough to move into new territories of cutting-edge SAP technology. We are not hiring, we are placing our candidates as permanent employees to work directly for the author. Smartologic has become the biggest recruiter of SAP professionals in Serbia. For more information visit our website www.smartologic.com

the challenge

Take the opportunity to join an international team of SAP experts and implement SAP Aerospace and Defense solutions, SAP Business Information Warehouse and SAP ERP Software in international projects. We are looking for Consultants, Mathematicians, Engineers, Software Architects, Trainees and University Graduates with an outstanding average grade to support and drive SAP implementation projects across **Europe**. Enjoy the possibility to be trained in the latest SAP Version for a minimum period of **3-6 months**.

the requirements

We are looking for something beyond intellect. What counts is your personality. If you are outstanding, distinctive and motivated then you can put your career on the fast track. If you have the talent, the will and the open-mindedness required to succeed then we will help you working for the most prestigious firms in the world. Furthermore we are looking for:

- Excellent IT-Skills
- Completion of a university degree with an excellent achievement preferable **FON, PMF, PHYSICS, ETF and Mechanical Engineering (Aeronautics or similar) with strong IT Affinity.**
- Extraordinary customer orientation and willingness for continuous learning
- Ability to present complex information in a clear and structured way
- Very good communication skills and team working competencies
- European mobility - **You will spend up to 200 working days per year outside Serbia** (visa will be provided)
- Regulated Military Service
- Excellent English skills are an imperative! **German** speaking candidates will be privileged.

the message

SAP affects the way the world does business. We're keen to work with professionals who solve issues with logic but are also dedicated with their heart. Analytical thinking and adrenalin are inseparably tied together.

We want your passion!
