PQ Metal Magic

PQ Metal Magic removes metals from pool water.

FEATURES:

- 445g/L Hydroxyethylidene Diphosphonic Acid Complex

BENEFITS:

- Highly concentrated formula for effectively removes iron, copper, manganese and other metals from pool water to restore water clarity
- This product also removes metal stains, scale from pool surfaces, equipment and is compatible with all treatment systems
- This product takes all forms of metal out of the water by turning it into a crystal and removing it through the filter
- If the pool is stained, Premium Quality Metal Magic will lift the stain, turn it into crystal and remove it
- Non - foaming
- pH neutral
- Highly concentrated

APPLICATION:

- Use 100mL per 50,000 Litres per week if pool has a tendency to show increasing metal content in water
- For stain prevention use 1 L per 100,000 Litres, if testing indicated metals above 3ppm

Dosage rates indicated are a guide only. Please refer to the label on the bottle for further instructions.

We recommend that you obtain advice from your [Zodiac Pool Professional](#) before adding any treatment to your pool or spa.
