

# Boxee Applications – How to Guide

---

- › To help users create applications and content aggregators for the Boxee platform the below information covers everything. Note that anything developed using the below will sit underneath the 'Applications' section of the Boxee Menu.

## Official Documentation – How to develop Apps for Boxee Box

This information can be provided direct to any developers who want to create. It is officially the formal documentation detailing the Python API, the GUI's XML schema, our RSS specification, and Javascript API.
